

# CURRICULUM VITAE

**DEJAN UROŠEVIĆ (born 1970)      16. I 2018.**

## Education History

B.Sc. 1994 Astrophysics, Department of Astronomy, Faculty of Mathematics, University of Belgrade

M.Sc. 1996 Astrophysics, Department of Astronomy, Faculty of Mathematics, University of Belgrade

Supervisor: Prof. Dr. Jelena Milogradov-Turin

Title: "Geometry of radio loops"

Ph.D. 2001 Astrophysics, Department of Astronomy, Faculty of Mathematics, University of Belgrade

Supervisors: Prof. Dr. Nebojsa Duric and Prof. Dr. Jelena Milogradov-Turin

Title: "The  $\Sigma - D$  relation as an indicator of radio loop origin"

## Summary of Academic Interests

Teaching: Undergraduates and Graduate students.

Research: radio astrophysics, particle acceleration, supernova remnants, planetary nebulae, HII regions.

## Employment History

Junior teaching assistant, Department of Astronomy, Faculty of Mathematics, University of Belgrade (1994-1997)

Teaching assistant, Department of Astronomy, Faculty of Mathematics, University of Belgrade (1997-2001)

Assistant professor, Department of Astronomy, Faculty of Mathematics, University of Belgrade (2001 - 2008)

Associate professor, Department of Astronomy, Faculty of Mathematics, University of Belgrade (2008 - 2015)

Professor, Department of Astronomy, Faculty of Mathematics, University of Belgrade (2015 - ...)

## Academic Awards

Prize: "Prof. Zaharije Brkić" for the best undergraduate student for 1993/1994 school year at the Department of Astronomy, Faculty of Mathematics, University of Belgrade. The annual award of Faculty of Mathematics for scientific results in year 2007th.

## Articles in Refereed Journals

1. J. Milogradov-Turin and D. Urošević, 1997: "Geometry of Large Radio Loops at 1420 MHz", Bulletin Astronomique de Belgrade, No. 155, 41-45.

## Invited Presentations

1. ”Updated  $\Sigma - D$  Relations and Main Radio Loops as SNRs”, The XIII International Hutsulian Workshop ”Methods of Theoretical & Mathematical Physics” Uzghorod - Kyiv - Ivano-Frankivsk - Rakhiv, Ukraine, September 2000.

2. ”The Updated  $\Sigma - D$  Relations for Supernova Remnants”, Arecibo Observatory, Puerto Ricco, USA, May 2002.

3. T.G. Pannuti, D.A. Swartz, N. Duric, D. Urosevic: ”An X-ray, Optical and Radio Search for Supernova Remnants in M81”, 200th AAS Meeting, Albuquerque, New Mexico, USA, June 2002.

4. ”Theoretical  $\Sigma - D$  Relation for Supernova Remnants”, The IVth Serbian - Bulgarian Astronomical Conference, Belgrade, April 21-24, 2004.

5. ”Evolucija radio-sjaja ostataka supernovih zvezda: najnoviji prilozi empiriji i teoriji”, Kongres fizičara Srbije i Crne Gore, Petrovac na moru, 3-5. jun 2004.

6. ”Radio Astronomy in Serbia: a Short Review”, The Vth Bulgarian - Serbian Conference of Astronomy and Space Science, Sofia, Bulgaria, May 9-12, 2006.

7. ”Nobelova nagrada za fiziku za 2006. godinu”, XXV republički seminar o nastavi fizike, Vrnjačka Banja, April 12-14, 2007.

8. ”Particle Acceleration in Strong Shocks: Influence on the Supernova Remnants Evolution in Radio”, The VIIIth Bulgarian-Serbian Astronomical Conference, Chepelare, Bulgaria, June 1-4, 2010.

9. ”On the Particle Acceleration in the Strong Shocks”, Second Symposium Mathematics and

applications, Belgrade, May 27-28, 2011.

10. "Optical detection of supernova remnants in the nearby galaxy IC342", IX Bulgarian-Serbian Astronomical Conference: Astrominformatics, Sofia, Bulgaria, July 2-4, 2014.

11. "On the Different Forms of Continuum Radio Spectra of Supernova Remnants: Theoretical Fundamentals", XVII National Conference of Astronomers of Serbia, Belgrade, September 23-27, 2014.

12. "On the Physical Foundation of equipartition in supernova remnants", VIII Symposium Mathematics and applications, Belgrade, November 17-18, 2017.

## Contributed Presentations

1. "The Origem and Monoceros Loops at 1420 MHz", XI National Conference of Yugoslav Astronomers; October 9-11, 1996, Belgrade.

2. "Main Radio Loops and Their Connection With Updated  $\Sigma - D$  Relations", XII National Conference of Yugoslav Astronomers and International Workshop on the Development of Astronomical Databases; November 19-21, 1999, Belgrade.

3. M. Stanković, Lj. Tešić and D. Urošević: "L - D Dependence for Supernova Remnants", XIII National Conference of Yugoslav Astronomers; October 17-20, 2002, Belgrade.

4. S. Stanimirović, L. Chomiuk, C. J. Salter, D. Urošević, R. Bhat and D. R. Lorimer: "A Possible Interaction Between SNR G42.8+0.6 and a Molecular Cloud", XIII National Conference of Yugoslav Astronomers; October 17-20, 2002, Belgrade.

5. L. Chomiuk, S. Stanimirovic, C. Salter, R. Bhat, D. Urosevic and D. Lorimer: "Arecibo grasps a possible interaction between SNR G42.8+0.6 and a Molecular Cloud", 201th AAS Meeting, January 2003, Seattle, Washington, USA.

6. V. Borka, J. Milogradov-Turin and D. Urošević: "Brightness of Main Galactic Radio Loops at 1420 MHz", XIV National Conference of Astronomers of Serbia and Montenegro; October 12-15, 2005, Belgrade.

7. B. Vukotić, D. Urošević, I. Bojčić and B. Arbutina: "On the Magnetic Field Evolution of Supernova Remnants in Starburst Galaxy M82", XIV National Conference of Astronomers of Serbia and Montenegro; October 12-15, 2005, Belgrade.

8. B. Arbutina, D. Urošević and B. Vukotić: "High Supernova Rate and Enhanced Star-Formation Triggered in M81-M82 Encounter", XXVIth General Assembly of IAU, IAU Symp. 237 (Triggered Star Formation in a Turbulent ISM); August 14-25, 2006, Prague, Czech Republic.

9. D. Urošević, B. Arbutina and B. Vukotić: "Thermal Radio Emission of Supernova Remnants: The Spectrum of HB3", XXVIth General Assembly of IAU, IAU Joint Discussions 09 (Supernovae: One Millennium after SN1006); August 14-25, 2006, Prague, Czech Republic.

10. D. Ilić, B. Arbutina, D. Urošević and B. Vukotić: "Optical Search for Supernova Remnants in M81 and M82", VI Serbian Conference on Spectral Line Shapes in Astrophysics, 11-15 June, 2007, Sremski Karlovci.

## Books and parts of books

1. D. Urošević and J. Milogradov-Turin, 2007: "Teorijske osnove radio-astronomije (Theoretical fundamentals of Radio Astronomy)", publisher: Faculty of Mathematics, Belgrade.
2. D. Urošević, 2007: "Supernova Remnants in Nearby Galaxies", as a part of book "Neutron Stars, Supernovae and Supernova Remnants", Eds. O. H. Guseinov, E. Yazgan and A. Ankay, publisher: Nova Science Publishers, New York, p. 137-154.

## Citations

My papers were cited over 600 times (google scholar). Heterocitation: at least 320 times (basic source "Astrophysical Data System - ADS", Harvard). Total ADS citation = 475.

## Classroom Teaching

### EXERCISES:

[Fall 1994] **Radio Astronomy, Structure and Evolution of the Stars, Stellar Astronomy, Stellar Systems.**

[Spring 1995] **Radio Astronomy, Structure and Evolution of the Stars, Stellar Astronomy, Stellar Systems, General Astrophysics, Fundamentals of Astrophysics.**

[Fall 1995, 1996, 1997, 1998, 1999, 2000] **Radio Astronomy, Structure and Evolution of the Stars, Stellar Astronomy.**

[Spring 1996, 1997, 1998, 1999, 2000, 2001] **Radio Astronomy, Structure and Evolution of the Stars, Stellar Astronomy, Fundamentals of Astrophysics.**

### LECTURES:

[Fall 2001, Spring 2002] **Radio Astronomy (with exercises)**

[Fall 2002, 2003] **Radio Astronomy, Teaching Methods in Astronomy & History of Astronomy.**

[Spring 2003] **Radio Astronomy, Teaching Methods in Astronomy & History of Astronomy.**

[Spring 2004] **Radio Astronomy, Teaching Methods in Astronomy & History of Astronomy, Fundamentals of Astrophysics.**

[Fall 2004, 2005, 2006, 2007, 2008] **Radio Astronomy, Teaching Methods in Astronomy & History of Astronomy, Fundamentals of Astrophysics.**

[Spring 2005, 2006, 2007, 2008, 2009] **Radio Astronomy, Teaching Methods in Astronomy & History of Astronomy.**

[Fall 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017] **Radio Astronomy, History of Astronomy, Interstellar Medium.**

[Spring 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018] **Radio Astrophysics, Teaching Methods in Astronomy**

### LECTURES (Ph.D. studies):

**Magnetohydrodynamics, Selected Chapters of the Theoretical and Observational Radio Astronomy, Evolution of Supernova Remnants, Physics of the Interstellar Medium, The High Energy Processes in Supernova Remnants (2001 - present)**

#### SUPERVISION:

1. Magistarska teza (M.Sc. thesis): "Sjaj radio-petlji na 1420 MHz (Brightness of radio loops at 1420 MHz)", 2005; student: Vesna Borka.
2. Magistarska teza (M.Sc. thesis): "Značaj tipa supernove za hidrodinamičku i radio-evoluciju njenog ostatka (Importance of supernova type on the hydrodynamic and radio evolution of its remnant)", 2005; student: Bojan Arbutina.
3. Magistarska teza (M.Sc. thesis): "Evolucija magnetnog polja u ostacima supernovih (Evolution of magnetic field in supernova remnants)", 2006; student: Branislav Vukotić.
4. Doktorska disertacija (Ph.D. thesis): "Spektri radio-petlji (Spectra of radio loops)", 2009; student: Vesna Borka Jovanović.
5. Diplomski master rad (master work): "Radio-evolucija ostatka supernove Cas A (Radio evolution of supernova remnant Cas A)", 2010; student: Maša Lakićević.
6. Diplomski master rad (master work): "Radio-evolucija ostatka supernove SN1006 (Radio evolution of supernova remnant SN1006)", 2010; student: Sladjana Nikolić.
7. Diplomski master rad (master work): "Nova  $\Sigma - D$  relacija za Galaktičke ostatke supernovih (The new  $\Sigma - D$  relation for the Galactic supernova remnants)", 2011; student: Marko Pavlović.
8. Diplomski master rad (master work): "Uticaj visokoenergetskih procesa na modulaciju MHD talasa tokom erupcija na Suncu (Influence of high-energy processes on modulation of MHD waves during Solar flares)", 2012; student: Vladimir Zeković.
9. Doktorska disertacija (Ph.D. thesis): "Termalno zračenje ostataka supernovih u radio-području (Thermal radiation of supernova remnants in the radio-domain)", 2013; student: Dušan Onić.
10. Diplomski master rad (master work): " $\Sigma - D$  analiza za četiri nepravilne galaksije: NGC4449, NGC4214, NGC2366, NGC1569 ( $\Sigma - D$  analysis for four irregular galaxies: NGC4449, NGC4214, NGC2366, NGC1569)", 2014; student: Jelena Čorak.

Additionally, member of commissions for many master, M.Sc. (magistarska thesis), and Ph.D. thesis; and anonymous examiner for many Ph.D. thesis

## Academic, Professional and Scientific Services

1. Vice - Dean of Faculty of Mathematics, University of Belgrade (2004 - 2007) and (2015 - present).
2. Head of Department of Astronomy, Faculty of Mathematics, University of Belgrade (2007 - 2014).
3. Lectures in Petnica Science Center (1994 - present). This center near the Serbian town of Valjevo, is for talented elementary and especially high school pupils. Center runs a continuous astronomy seminar series.
4. Coordinator of Department of Astronomy Seminar Series (2000 - 2016).
5. Editor of the "Serbian Astronomical Journal" (2002 - 2015). Editor-in-chief of the "Serbian Astronomical Journal" (2015 - present).
6. Member of the International Astronomical Union (IAU) – Commissions: 34 - Interstellar Medium and 40 - Radio Astronomy.
7. Member of the European Astronomical Society (EAS).
8. Advisor for astronomy – National Geographic Serbia (2006 - present).

9. Head of the research project "Emission nebulae: structure and evolution" (176005) financed by the Ministry of Education, Science, and Technological Development of the Republic of Serbia (2011 - present).
